Portfolio: heshaniportfolio.netlify.app
Contact No: +94 70 306 5969

Linkedin: Heshani-Shehana
Location: Colombo

PROFILE

Motivated results-oriented Full Stack Developer with extensive experience building and scaling end-to-end applications across the MERN stack, .NET, and Python ecosystems. Proven track record of designing robust RESTful APIs, crafting clean and responsive React UIs, and seamlessly integrating cloud and third-party services. Passionate about turning complex backend logic and modern frontend frameworks into seamless, user-centric digital products from concept to deployment.

EDUCATION

BSc. Honours Degree in Software Engineering 2023 -Present
Sabaragamuwa University of Sri Lanka Current GPA -3.30/4.00

Advanced Level (Science Stream) 2020
Mahiyanagana National School - Mahiyanaganaya Z Core - 1.4738

PROJECTS

MyTurn - Smart Fuel Queue Optimization System (GROUP)

Developed a web-based fuel queue management system that provides real-time queue status, digital token-based slot reservations, and automated user notifications. **Built With:** Next.js, Java (Spring Boot), PostgreSQL, WebSockets, Firebase Realtime Database, Google Maps API, JWT Authentication, REST APIs, AWS/Google Cloud and Git.

Tastee - Food Delivery Website (INDIVIDUAL)

Developed a full-stack food delivery web application allowing users to browse menus, manage carts, and place orders with secure payment integration. **Built With :** MongoDB, Express.js, React, Node.js, REST APIs, JWT Authentication, Stripe, Multer and Git.

TravoSphere - Travel Agency Website (INDIVIDUAL)

Developed a full-stack travel agency web platform that allows users to explore destinations, plan trips, and browse curated travel packages. **Built With:** React, Vite, Node.js, Express.js, Firebase, Three.js (@react-three/fiber & @react-three/drei), RESTful APIs, Git.

InternQuest - Internship and Job Finder (GROUP)

Developed a full-stack internship and job matching platform connecting university students with employers using role-based access control. **Built With:** React 19, Vite, JavaScript, Node.js, Express.js, MongoDB (Mongoose), Axios, React Router DOM, Recharts, React Toastify, Swiper, Lucide React, Tailwind CSS, Git.

FutureHive - RAG Research Assistant (GROUP)

Developed an AI-powered research assistant platform with semantic search capabilities and RAG-based architecture for accurate, context-aware responses. Integrated vector search and collaboration features. **Built With:** React, FastAPI, MongoDB, RAG-based architecture, Ollama (LLaMA 3) , Git.

TECHNICAL SKILLS

Programming Languages:	JavaScript, TypeScript, C#, Python, Java, PHP
Frameworks :	React, Node.js, Express, Tailwind ,Flask, Langchain
Databases:	PostgreSQL, MongoDB, MySQL
Tools & Platforms:	VS Code, Figma, GitHub, Azure, AWS, Docker, Cisco Packet Tracer, Jira
Concept:	RESTful APIs, OOP,Agile Development, Authentication, SDLC

SOFT SKILLS

Teamworking	Problem-Solving	Leadership	Self-Learning Ability
Documentation	Presentation	Communication	Time Management

AWARDS & ACHIEVEMENTS

Nexora 1.0 - Top 15, Inter University Datathon Issued by Computer & Data Science of NSBM Green University 
IDEALIZE 2025 - Winner Proposal Submission Round Issued by AIESEC in University of Moratuwa 
DEV{thon} 2.0 - Winner UI Design Submission Round Issued by Rotaract Club of University of Moratuwa 

VOLUNTEERING & EXTRACURRICULAR

Program Team Member – TechTalk v1.0 , Society of Computer Sciences - SUSLL 
Program Team Member - GeekZone v1.0 , IEEE Student Branch of SUSL 
Content Writer - Rotaract Club of Sabaragamuwa University of Sri Lanka 

CERTIFICATES

Postman API Fundamentals Student Expert by Postaman 
Getting Started with AWS by Simplilearn 
The Art of Prompt Engineering by Cognitive Class 
Search Engine Optimization (SEO) with Squarespace by Coursera 
SQL (Basic) Certificate by HackeRank 
Security Risk Management Professional – Country (SRMP-C) by International NGO Safety & Security Association (INSSA) 
Python 101 for Data Science by Cognitive Class
