Contact: +94 70 306 5969

Location: Colombo

PROFILE

Motivated and results-driven Software Engineer passionate about modern web development and building intuitive user interfaces. Skilled in React.js, Next.js, JavaScript/TypeScript, Node.js, and .NET for backend development, along with SQL and NoSQL databases. Experienced in building full-stack applications, designing RESTful APIs, and delivering responsive user experiences. Strong problem-solving, teamwork, and continuous learning mindset with a keen interest in AI-driven product development

EDUCATION

BSc. Honours Degree in Software Engineering

Expected Graduation 2027

Sabaragamuwa University of Sri Lanka

Advanced Level (Science Stream)

2020

Mahiyangana National School

PROJECTS

MyTurn - Smart Fuel Queue Optimization System (Group Project – Ongoing) ([Frontend](#) , [Backend](#))

Developed a web-based fuel queue management system that provides real-time queue status, digital token-based slot reservations, and automated user notifications. **Tech Stack:** Next.js, Java (Spring Boot), PostgreSQL, WebSockets, Firebase Realtime Database, Google Maps API, JWT Authentication, REST APIs, AWS, Google Cloud, and Git.

Tastee - Food Delivery Website (Individual Project) [GitHub](#)

Developed a full-stack food delivery web application allowing users to browse menus, manage carts, and place orders with secure payment integration. **Tech Stack:** MongoDB, Express.js, React, Node.js, REST APIs, JWT Authentication, Stripe, Multer, and Git.

TravoSphere - Travel Agency Website (Individual Project) [GitHub](#)

Developed a full-stack travel agency web platform that allows users to explore destinations, plan trips, and browse curated travel packages. **Tech Stack:** React, Vite, Node.js, Express.js, Firebase, Three.js (@react-three/fiber & @react-three/drei), RESTful APIs, Git.

InternQuest - Internship and Job Finder (Group Project) [GitHub](#)

Developed a full-stack internship and job matching platform connecting university students with employers using role-based access control. **Tech Stack:** React 19, Vite, JavaScript, Node.js, Express.js, MongoDB (Mongoose), Axios, React Router DOM, Recharts, React Toastify, Swiper, Lucide React, Tailwind CSS, Git.

FutureHive - RAG Research Assistant (Group Project) [GitHub](#)

Full-stack capstone web platform with a React frontend, Node.js/Express backend, and a Python admin server powered by Firebase. Features smooth animations, role-based access, and a modern responsive UI. **Tech Stack:** React, Vite, React Router DOM, GSAP, Lucide React, Node.js, Express.js, Python, Firebase, RESTful APIs, Git.

TECHNICAL SKILLS

Programming Languages:	JavaScript, TypeScript, C#, Python, Java
Frameworks:	React.js, Next.js, Node.js, Express.js, Tailwind CSS, Flask, LangChain
Databases:	PostgreSQL, MongoDB, MySQL
Tools & Platforms:	VS Code, Figma, GitHub, Azure, AWS, Docker, Cisco Packet Tracer, Jira
Concepts:	RESTful APIs, OOP, Agile Development, Authentication, Design Patterns

SOFT SKILLS

Teamwork	Problem-Solving	Leadership	Self-Learning Ability
Documentation	Presentation	Communication	Time Management

AWARDS & ACHIEVEMENTS

Nexora 1.0 - Top 15 Inter-University Datathon Issued by the Department of Computer and Data Science, NSBM Green University

IDEALIZE 2025 - Winner Proposal Submission Round Issued by AIESEC in University of Moratuwa

DEV{thon} 2.0 - Winner UI Design Submission Round Issued by Rotaract Club of University of Moratuwa

VOLUNTEERING & EXTRACURRICULAR

Program Team Member – TechTalk v1.0, Society of Computer Sciences - SUSL

Program Team Member - GeekZone v1.0, IEEE Student Branch of SUSL

Content Writer - Rotaract Club of Sabaragamuwa University of Sri Lanka

CERTIFICATES

Microsoft Azure Essentials Professional Certificate by Microsoft and LinkedIn

Postman API Fundamentals Student Expert Issued by Postman.

Getting Started with AWS Published by Simplilearn.

The Art of Prompt Engineering Issued by Cognitive Class.

Search Engine Optimization (SEO) with Squarespace Issued by Coursera.

SQL (Basic) Certificate Issued by HackerRank.

Python 101 for Data Science Issued by Cognitive Class.
